

2025 MID-YEAR MISSIONS REPORT

This first half of the year 2025 God has enabled us to realize great Kingdom strides as we venture out to Safeguard children from the sexualization agenda

One of the focus areas has been equipping parents to process their own personal pain and trauma so that we all can rescue the children from a place of personal victory.

Only one who has experienced the free gift of God can faithfully disseminate it.

This year we direct our efforts against the Sexualization agenda against our children focusing on four main heads of the vicious beast- , Abortion, Pornography, LGBTQ+ ideologies and CSE- Comprehensive Sexuality Education.

To arm parents against Abortion we have now a collaboration with Life Equip Global (LEG) an organization dedicated to providing Life Advocacy Training that helps us combat the vice of killing the pre-born. This is a strategy devised by the enemy primarily against our women and girls.

Alarming statistics shared on the national platforms have sent jitters showing that married women have contributed to the huge numbers of abortion across the country.

But Mzazi-IP is doing something about this. On January 7th-10th a team of 15 Mzazi-IP leaders from different parts of the country participated in a roundtable conversation that was held in Mombasa to equip us as Pro-family trainers.

On the last day we met over **150** pastors and Bishops to begin the roll out of our equipping programs across the country.

inaugural conference

The message was clear, parents must become intentional and move in urgency to rescue children and youth .

As we do so we must carry along both love and compassion for those trapped in vices and ideologies and at the same time vehemently push back those intent at sexualizing children and youth

The following week Mzazi-IP was part of the ACPF Pan Africa Conference on Family Values that was held at the Boma Hotel. Pst Antoninah participated in a panel discussion sharing on the impact of CSE on our children in the grassroots at the ACPF Pan Africa Conference on Family Values

The proponents of LGBTQ+ and other Anti-christ conversations are all after the same grass-roots impact as we are.

Luke 14:31-32 Yeshua gives us a battle strategy.

Mzazi-IP aims to go house to house with the Gospel of Jesus the Christ that alone can *safeguard our children from the sexualization agenda* and all other onslaughts.

All those who oppose us have

1. Very well oiled coffers- they don't lack financial resources because their people invest in it...and
2. Able laborers who advance the cause on different levels both full-time and as volunteers. You'll find them in (government/political, education and other social gates, religious fronts and economic sectors).

ACTION

Going forward we shall focus primarily on the **ministry of prayer** and **multiplying co-workers** in this assignment.

This is for **everyone** who is convicted to participate in any of the above four sectors.

We shall host online Webinars for this.* Watch out for the schedule

We trust God for organic growth of the work.

This far we have come because of the support of God's people in prayer, encouragement, mobilization and generosity.

We seek to strengthen what exists as we forge forward stronger in Christ alone.

We are grateful for all those who have participated to make this first half of the year very eventful and successful.

The future only looks brighter as we commit to partner together to accomplish exploits for Jesus the soon coming King by safeguarding His next generation of disciples - our children and youth

We invite everyone who cares about children and youth and family to join us in the Mzazi-IP movement
